RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
Washington, DC 20231

Dear Sir:

Claims 1-19 are pending in the application. In response to the restriction requirement set forth in the Office Action mailed January 24, 2003, Applicant hereby provisionally elects Group I (claims 1-12) for continued examination.

The Examiner has required restriction between the following 3 groups:

- I. Claims 1-12, drawn to a gene detection system, classified in class 422, subclass 68.1;
- II. Claims 13-18, drawn to a method for detecting genes, classified in class 435, subclass 6; and
- III. Claim 19, drawn to a chip comprising an electrode on which a probe is immobilized, classified in class 435, subclass 287.2.

Applicant's provisional election of Group I (claims 1-12) for continued examination does not constitute concurrence in the correctness of the Office Action's restriction requirement. However, in order to facilitate the prompt issuance of a patent, Applicant has made the provisional election of Group I, reserving the right to object to the restriction requirement or to file continuation, divisional, or other related applications with respect to non-elected claims.
